Founders' Message

Tenacitas Definit Fortunatus Populum Cogit Numquam Primus

(TENACITY DEFINES SUCCESSFUL PEOPLE AS IT FORCES ONE TO NEVER LOSE FOCUS)

Today we send our warmest Congratulations to the Class of 2022 on your graduation! We know what was involved in this accomplishment and we cannot adequately express how proud we are of you. You worked hard in spite of all the challenges in your way, and proved to yourself and everyone what you are capable of. We are very proud of you for setting your sights high and making every effort to reach this milestone. You truly are role models to those behind you and we wish you even greater fulfilment and success ahead.

We are equally proud of Riara University for its continued efforts to graduate students who meet the expectations of the job market. Our sincere appreciation also goes out to the parents and guardians for continued partnership with these Graduands and the University even under very strenuous circumstances. You supported the Graduands with the necessary resources and tools to ensure learning continued uninterrupted when the pandemic struck and even beyond. Thank you for walking this journey with them.

The faculty also deserves our heartfelt appreciation for preparing you so well. They have been committed to adapting new teaching methodologies occasioned by the shift from face-to-face lectures to online pedagogy. We appreciate you all for adapting so easily to online/blended learning even after COVID-19 caused many institutions to close. That kind of commitment from you all contributes to the success story of Riara University.

Have a vision of what you want to achieve and be prepared to pay the prize for it without giving up along the way. Success will not come to you, it is you to go to it!

When we founded The Riara University and the Riara Group of Schools 48 years ago, we knew the journey was not going to be easy to bring them to what they are today. Our vision of empowering lives through education is what kept us going. Many great people have passed through these institutions and are making an impactful difference in our society today. This is the type of tenacity that we wish to see in each of you. As Oprah Winfrey once said in line with the theme of your commencement today, "Your life's work is to find your life's work and then to exercise the discipline, tenacity, and hard work it takes to pursue it". In another context, Arsene Wenger emphasizes the same principles when he says, "Maintain that motivation to go from A to B and to keep your focus on that target, without any weakening. That is called tenacity; stamina in your motivation".

There is no easy way out. Tenacity defines successful people because it forces you to never lose focus of what you want to achieve in life no matter the frustrations, challenges, or discouragement along the way. Have a vision of what you want to achieve and be prepared to pay the price for it without giving up along the way. Success will not come to you, it is for you to go for it!

Go out therefore and innovate, lead, empower, and impact the lives of other individuals and organizations. Africa needs you, the World needs you. Be audacious and tenacious and you will realize that the sky was never the limit but rather, your viewpoint of endless possibilities.

Congratulations Class of 2022!

May God Bless You!

Chancellor's Message

Vicissitudo Manebit Constans Factor In Omni Ratione Vitae.

(CHANGE WILL REMAIN A CONSTANT FACTOR IN EVERY ASPECT OF LIFE.)

I am filled with immense joy as I join you on this auspicious occasion of your Commencement Ceremony. Congratulations Class of 2022! Your hard work and resilience paid off despite the challenges of the COVID-19 pandemic and the difficult economic times. You have overcome all odds through your tenacity to graduate today. As you transition, may no challenge ever kill your spirit in achieving your set goals now or in the future.

Always remember that change will remain a constant factor in every aspect of life. How you harness it to your benefit is what will remain eternally important to you. One important change that is happening today and will keep happening in your career is developments in technology. This will in turn disrupt jobs and constantly demand new skills.

The future of work will demand not just digital and technology-related skills but also soft human skills. Some soft skills that employers will be looking for in 2030 include: problem solving and critical thinking skills, excellent communication skills, creativity or thinking outside the box, teamwork, emotional intelligence, and leadership skills, among others.

The 4th Industrial Revolution that we are in – also known as the Knowledge Economy – is characterised by disruption of jobs and skills due to the digitization of life and the workplace. This, therefore, demands lifelong learning in order to thrive. As you go out, I urge you to embrace lifelong learning as an important career strategy in order for you to remain relevant in the labour market.

The emergence of the gig economy and freelancing in the world of work also presents enormous opportunities for University graduates. Today you can work as freelancers or part-time hires. The gig economy has opened up such opportunities for people to work for a specified time without a long-term commitment to any employer. I urge you to seek out such opportunities and indeed earn a living instead of sitting at home waiting for formal employment.

In whatever career you opt for, your values should be your guiding principle. Be ethical in all you do. Keep going strong no matter what comes your way. If you overcame COVID-19, you can overcome any other obstacle that life throws your way. Beyond Tenacity, the world is yours to conquer.

Congratulations Class of 2022!

Chair, University Council's Message

Supereminet omne certamen promptum accommodare et reinvent te

(RISE ABOVE EVERY CHALLENGE, READY TO ADAPT AND TO REINVENT YOURSELF)

On behalf of the University Council, I take this opportunity to congratulate the Class of 2022 on your remarkable achievements. Graduations are a time to celebrate years of hard work and determination. In your case, you have emerged victorious today despite the challenges of the COVID-19 pandemic which struck when your studies were still underway. We thank you for your resilience and celebrate your great achievement today.

The Council is proud to see the digital investments it has made in the University have borne fruits of excellence among the Graduands. You are graduating today because you embraced online learning when the pandemic struck. You attended virtual classes and turned in assignments on the online Learning Management System to enable you to complete your studies. We encourage you to always embrace change wherever you go since the world is changing fast as technology evolves. The job market will require workers who adapt easily to change and you have demonstrated you can do that. Go to the world and shine.

Other sectors have similarly adjusted, more so the banking sector, to rebound stronger than even before the pandemic. The banks embraced technology to provide Kenyans more convenient channels for their transactions leading to remarkable growth of income. Indeed, Kenyan banks made it easier for people to send and withdraw cash via the mobile banking and or send money to other global platforms. The pandemic accelerated the use of digital platforms such as mobile and internet banking and the recovery of the banking sector is largely attributed to the tenacity of these institutions to adapt rapidly to changes in the operating environment.

As new technologies and other disruptions continue to emerge, I challenge you to always be ready to adapt and to reinvent yourself. Rise above whatever challenge life throws at you and ensure to ALWAYS WIN, even if through lessons learned.

I therefore urge you to shift rapidly from the negative effects of COVID-19, and instead focus on the immense opportunities that the pandemic has opened up for you in the world of work, entrepreneurship, ethical leadership, and service to humanity. Go create, lead, and impact yourself and the society ever so positively in all you do.

Congratulations Class of 2022!

Chair, University Council

Vice Chancellor's Message

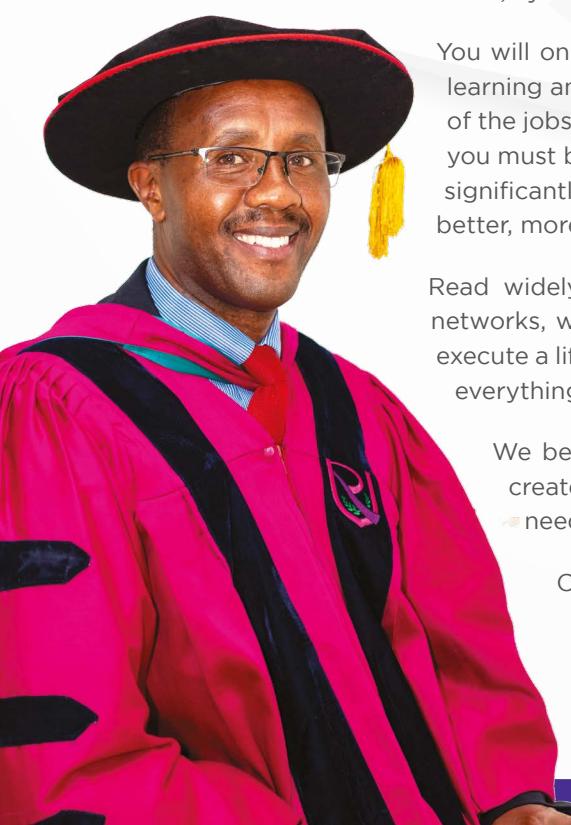

Vicissitudo Manebit Constans Factor In Omni Ratione Vitae

(SUCCESS COMES THROUGH HARD WORK, DISCIPLINE AND A TENACIOUS ATTITUDE.)

Today is an important day as we assemble here to celebrate the University's 6th Commencement Ceremony. I congratulate you the Class of 2022 on making yourselves and all of us very proud indeed. Your greatest achievement today is the tenacity that you have exhibited to graduate despite all the challenges of recent times. Sincere appreciations to all parents, guardians, faculty, partner organisations, and all who have contributed to your success today. I am truly proud and grateful to you all.

To the Graduands, we consider each of you to be a critical stakeholder in the journey of helping RU impact many more lives so I implore on those completing their studies to join the Alumni Association and continue to engage with us and the continuing students. You will hold important positions in your careers out there. Please provide mentorship, scholarships, guest lectures, internships, business opportunities, and jobs for those that you leave behind. Also, please share your stories of success to inspire those behind you. If you are continuing with your studies at RU, we look forward to continuing the journey of impact and empowerment together.

As you all transition, be guided by today's Commencement Theme, Beyond Tenacity. Whether you have a job already or not, whether you're continuing with studies or going into business, it is your hard work, discipline and a tenacious attitude that will carry you through the next stage(s) of life. Success does not come on a silver platter or a red carpet, neither does it come by faltering. Hard work and persistence are what will help you win. Whatever you do, be willing to be an innovator and seize every opportunity to make a difference in your life and in society. Be the one to tackle the most prominent challenges of our times including climate change, youth unemployment, hunger, pollution, corruption, insecurity, injustice, prejudice, misinformation, cybersecurity, wars, conflicts, poverty, among others.

You will only be successful in your life and careers if you embrace lifelong learning and adaptability to both the opportunities and shocks of life. Most of the jobs you will hold will require constant reskilling and upskilling, which you must be ready for. In every situation, ask yourself, what can I do now to significantly improve my current situation and to prepare myself for an even better, more fulfilling tomorrow.

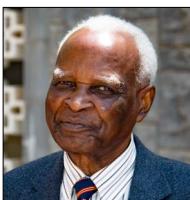

Read widely, start saving early, invest wisely and early, create the right networks, weigh every decision, challenge yourself constantly, develop and execute a life-plan, improve every day, and aim for excellence and integrity in everything you do. Above all, aim to be an excellent human being.

We believe in your abilities, so go on and be the best that you were created to be, and be the positive difference that the world desperately needs!

Congratulations Class of 2022!
